

# MAXI-B

THE REFILL BOTTLE  
MADE OF 100% ALUMINIUM

## DESCRIPTION

Our largest aluminium bottle with a diameter of 53 mm and a GCMI 24/410 thread offers a broad range of applications in cosmetics, such as skincare and haircare. Due to its large diameter, the flexibly adjustable length and the wide opening, it is also ideally suited for refill systems.

For a more climate friendly approach, the bottles can be produced from post-consumer recycled aluminum with a drastically lower carbon footprint.

The benefits of our LINHARDT bottle series are obvious: Our aluminium bottles are lightweight, shatterproof, opaque, aroma-proof and highly recyclable - all while being an elegant eye-catcher.

## TECHNICAL DATA

- Diameter 53mm
- Length: 93.5mm – 185mm
- Fill volume: 150ml – 355ml
- Thread: GCMI 24/410
- MOQ: 50,000 pcs.

## YOUR ADVANTAGES

- **Significantly reduced carbon footprint** of PCR bottles compared to PET  
→ Maxi-B 250 ml: **51% lower carbon footprint** than a comparable PET bottle, 78,20 g CO<sub>2</sub>e per bottle (PET) vs. 38,08 g CO<sub>2</sub>e per bottle (PCR aluminium)
- Can be used as a refill bottle
- Multiple application choices, e.g. different lotion or spray pumps
- Shatterproof
- Excellent barrier properties: opaque & aroma proof
- Sophisticated aluminium look
- 360° inline direct print: Offset print with up to 8 colours, no label required
- Outstanding recyclability: "Metal recycles forever"
- Quality "Made in Germany"
